YOUTH TOUR ESSAY

DISCOVERING THE COOPERATIVE DIFFERENCE

What is the Cooperative Difference?

Think about how your local electric cooperative differs from other businesses, especially other utilities, in its structure, philosophy, and community involvement.

Some things to think about are:

- Who owns the business?
- How are important business decisions made, and who makes them?
- How do the owners voice their concerns and opinions?
- Who benefits from the service?
- Who benefits financially from any excess revenue?
- What are the principles that make cooperatives unique?
- What is the primary mission of electric cooperative utilities?

Youth Tour winners are selected by evaluation of the information included in the application and the essay. Essays are judged on how clearly the opinions and ideas are expressed in the applicant's own words. The Online Orientation course located at www.ohioec.org/orientation and the Lorain-Medina Rural Electric website may be used as resource tools for essays.

In a one page or more essay, answer one of the following questions:

1. What are the biggest energy issues that your generation will face?
2. How would you expect to benefit from the Youth Tour experience in your future?
3. What cooperative core value can improve your community the most?
4. How has your electric cooperative improved the living conditions in your home, or in your life?
5. What do you perceive as the greatest problem facing the electric utility industry today?
